

TECHNICAL SHEETS

XP (XTREME PERFORMANCE)

The innovative XP (Xtreme Performance) line of WIX Filters are engineered for today's toughest driving conditions - heavy loads, city driving, high temperatures and extended oil change intervals – all on synthetic oils. XP Filters provide the ultimate protection, offering technology for the latest advancements in Synthetic oils and 10,000 to 25,000 kilometre oil change intervals.

These filters offer:

- Double-sided, wire-backed, full-synthetic media
- Made for today's longer O.E. service intervals
- Ideal for heavy loads, city driving and extreme driving conditions
- Designed for full-synthetic oils
